

## **Keeping Your Provider Number Active and Accurate**

The COVID-19 Public Health Emergency (PHE) exceptions may be ending soon. To prevent **Suspension** for an expired license or **Termination** for a missed re-validation, please also check your contact information (i.e., phone numbers, address, emails) as these could also cause your provider number to suspend.

Please access your provider portal through the [Discover Your Provider \(DYP\) website](#) to update your provider records or submit a revalidation application.

For questions regarding your provider file, please contact HHS Tech Group at 1-877-399-0121.

### **Deployment Information**

**Deployment Date:** August 17, 2022

**Audiences:** All Providers
